Air Amplifying Products

GIPL Range of compressed air saving products

GENERAL IMSUBS, PRODUCTS READY RECKONER

COMPRESSED AIR SAVING BLOW OFF PRODUCTS

eX Blow Gun **EBG-1**

- High volume blow gun
- Ergonomically designed
- Strong, unbreakable & maintenance free
- 7 times air amplification
- Light weight

Real blow nozzle **RBA-2 & RBS-3**

- Air amplification 12 times
- Great air and energy saver
- Machine mountable
- Meets international safety norms.
- Available in Aluminium and stainless steel.

Real blow High thrust jet **HTB - 4**

- Air amplification 3 times
- Lower noise level.
- High thrust.
- Meets international safety norms.
- Rugged Stainless steel construction.

Real blow pipe **RBP-5**

- Air amplification 12 times.
- Deep penetration.
- Versatile machine mountable or blow gun mountable.
- Meets international safety norms.

COMPRESSED AIR OPERATED HOUSE KEEPING PRODUCTS

Vac Blow gun **VBG-14**

- Two in one vacuum cum blow gun.
- Strong unbreakable.
- Low cost, zero maintenance.
- Washable dust collection bag.
- Wide application for cleaning and collection.

Real Vac **RVC-15**

- Multipurpose material collection cum cleaning system.
- Wet and dry capability.
- Large drum type collector.
- Washable filter and useful standard accessories.
- Meets most industrial housekeeping requirement.

UNIQUE SPECIAL APPLICATION TOOLS & SYSTEMS

Vac Blow gun **DHC-14**

- Unique deep hole cleaning system.
- Capable to clean blind holes from $\phi 6$ mm to $\phi 30$ mm & upto 300 mm depth.
- Single lever operation.
- Washable dust / chip collection bag.
- Light weight, break resistance and maintenance free.

Cable & Tube Wiper, Real Wipe **CWR-16**

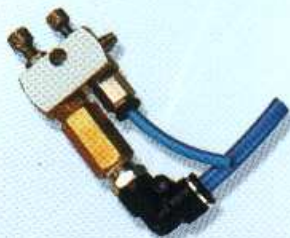

- Wipe dry cables and tube, using compressed air.
- Openable design for quick install.
- Uniform 360° air flow for uniform cleaning.
- Adjustable flow and thrust.
- Saves air and cost over conventional drying.

Vac In line

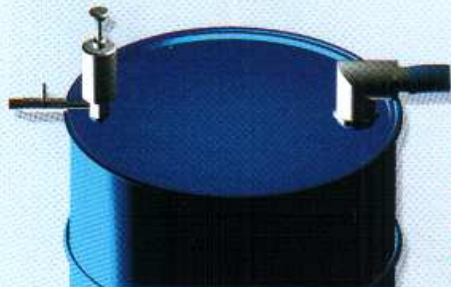

- Portable vacuum or blow off device.
- Can be used for conveying plastic pallets, small parts.
- Available in aluminum and stainless steel construction.
- Wide range of sizes from 20 mm upto 150 mm throat diameter.
- Saves great amount of compressed air when used as blower/ ventilator.

Water Spray Nozzles **SPS-13**

- Sprays very fine mist of water for cooling.
- Can be used as chamber humidifier.
- Variable water flow and air flows as well as throw of spray.
- Stainless steel construction for longer life.
- Also used in circular woven sacks looms.

Barrel filling and emptying system **RAPFLO-17**

- Liquid transfer rate-upto 6000 liters per hour.
- Compressed air operated, fast, efficient, maintenance free.
- Compatible with standard 200 liter metal barrel.
- No motor, sparks, motor burn out.
- Auto over fill prevention.

Accessories and add on

- Useful versatile add on accessories.
- Improves functionalities of product.
- May help achieving reduction in operation time.
- Made from appropriate material for long life and economical price.

PRODUCTS AND SERVICES

Compressed air division

- Compressed air saving blow guns and nozzles.
- Compressed air operated vacuum guns and vacuum pumps.
- Cable / tube wipers and driers.
- Compressed air operated air curtains.
- Compressed air operated vacuum conveying tools.
- Compressed air operated barrel filling and emptying system.

Ergonomical Blowgun **PSH-7**

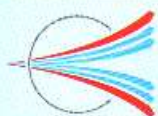

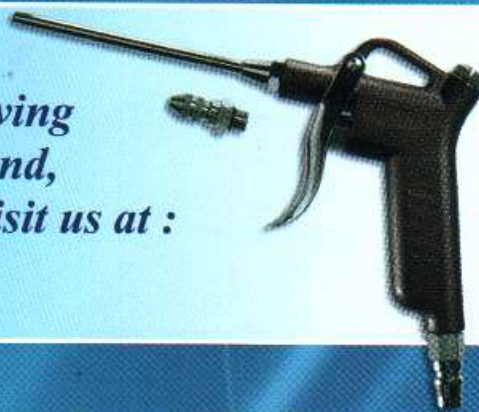

An ergonomic, rugged, light weight, and practically
Unbreakable gun to adopt almost all nozzles with bsp threads.

Appliances division

- Water feed valves for washing machines, dish washers,
- water purifiers, Domestic and industrial RO systems.
- Dispensing valves for vending machines.
- Latching solenoid valves for automatic taps, faucets, urine flushers, cistern flushers.
- Available in 1/4" to 1" BSP size.

*We also offer complete
solution for industrial air blowing
operations under Blowsol Brand,
